Kingslee_Landscape Change Request

Including new or replacement shrubs, new planting beds, edgings etc.

Procedure:

Complete and submit this form to the Landscape Committee..

Karen Olson - Chair, South Circle
Bettimae Richman- West Circle
Carol Zehnder - North Circle
Mary Fitch - North Circle
Sandy Henrichs – South Circle

The Kingslee Board has approved the following guidelines for shrubs:

Requested shrubs are subject to approval from a Certified Arborist. He/she will advise on zone hardiness, disease resistance, maintenance requirements and appropriateness of location. This is essential since all shrubs become the maintenance responsibility of Kingslee once planted.

Requests for other plantings or modifications must be accompanied with a plan or layout illustrating location and specifics of changes to be made. This should include kinds of plants and other materials to be used.

All landscape changes or additions covered by this request are limited to the common area immediately connected to the requesting homeowners townhouse. Homeowners will be responsible for all expenses and maintenance with the exception of shrub trimming.

Should a future homeowner not accept the responsibility to maintain these changes, the current homeowner is required to return the area to its previous state.

You will be informed of the status of this request after the Board Meeting following your submission.
